Standard Locks for Special Needs

STOCK LOCKS

Through your CompX Chicago distributor . . . a program to meet your lock requirements.

CompX Chicago manufactures a wide variety of locks for residential, commercial and industrial use. We've been solving security problems since the need for metal cabinet locks brought about the founding of our company in 1920.

The locks shown in this catalog are particularly well-suited to serve the replacement market...as well as component manufacturers.

Our experience in serving this market has shown us the importance of product quality, competitive pricing, proper packaging and immediate service and delivery. Working through your CompX Chicago distributor, we offer a program that is committed to serving your needs.

A complete selection of locks

- Door and drawer locks for virtually every application, every security requirement
- Locking devices of every description for use in schools, institutional and commercial buildings
- Key blanks and keying kits to complement each of our locks

Packaged for your convenience

- All hardware is individually packed in see-thru poly-bags for product protection and easy inspection
- Poly-bags of like hardware are grouped in popular quantities and placed in handy cases
- Case designed for convenience in storage and ease in handling
- Cases are labeled for quick identification

HOW CABINET LOCKS ARE USED

DOOR APPLICATION

Bolt or cam at side locks to frame.

LEFT HAND

RIGHT HAND

At which edge of door hinges are located determines hand of door when facing door.

SINGLE DRAWER APPLICATIONS

Drawer mounted lock – Bolt or cam locks on frame.

Frame mounted lock – Cam locks on back of drawer front with hook cam engaging strike.

LID APPLICATION

Lock engages strike mounted on underside of lid.

SLIDING (By-pass) DOOR APPLICATION

Lock engages strike mounted on rear door.

A CUT ABOVE

The proven Ace II® original tubular lock, with its all brass construction and assembly process, provides professional locksmiths and their customers with excellent security at value prices.

CODE CHANGEABLE

6555

Complete route management system featuring **System 64** – change codes up to 64 times with the same lock

- Add codes as needed - no need to purchase keys for all 64 codes at one time
- System 64 locks conform to NAMA specifications and are available in spring and dead bolt versions

System 64 Security

- All key codes are exclusively assigned and are registered on confidential signature cards
- All keys are shipped separately from locks; CompX does not supply or sell key blanks for duplication

- Solid steel construction with brass components
- Unique key design and manufactured with cold drawn steel, which significantly reduces wear
- Tumblers and driving pins are arranged specially to defeat picking and manipulation
- Steel outer barrel, stainless steel plug and brass components provide superb corrosion resistance for most applications
- Special order – contact CompX for more info

6552

PROBLEM	BEST SOLUTION
Keys are lost by employees	System 64 locks can be set to new code without removing the lock; no need to order new locks/keys
Vending machines are moved between routes	System 64 makes it easy to change and update route codes as needed
Supervisors need to access vending machines on several routes	System 64 allows supervisors to carry only the keys they need
Service personnel has to maintain and repair vending machines brought in from other routes	The service shop has access to all vending machines with System 64 route management locks

ACE KEY COVERS / WEATHER COVERS

ACE® KEY COVERS

Available in a large range of colors, these user friendly Ace II® Key Handle Covers from CompX Chicago make key management easy.

Key Handle Covers are made of a durable, strong plastic that press-fit any ACE II® key. The larger size allows for better grip and overall control of the key.
