how cabinet locks are used

DOOR APPLICATION

Bolt or cam at side locks to frame.

LEFT HAND

RIGHT HAND

At which edge of door hinges are located determines hand of door when facing door.

LID APPLICATION

Lock engages strike mounted on underside of lid.

SLIDING (By-pass) DOOR APPLICATION

Lock engages strike mounted on rear door.

SINGLE DRAWER APPLICATIONS

Drawer mounted lock – Bolt or cam locks on frame.

Frame mounted lock – Cam locks on back of drawer front with hook cam engaging strike.

MULTIPLE DRAWER APPLICATIONS (Wood construction)

PEDESTAL/FILE

Side mounted gang lock – vertical bar movement locks all drawers simultaneously.

DESK

Center drawer mounted lock – Bolt locks on frame or top. Side drawer mechanism(s) actuated by locked center drawer secures drawers.

PEDESTAL/FILE

Top drawer mounted lock activates side mechanism securing other drawers.

LATERAL FILE

Top drawer mounted lock activates side mechanisms securing other drawer(s); also allows only opening one drawer at a time.

finish codes

Finish code applies to exposed portions of lock and is indicated by part number suffix, i.e.: C8053-3 Bright Brass finish.

2C – Zinc Plated	4G – Antique Brass	26 – Bright Chrome
3 – Bright Brass	14A – Bright Nickel	26D – Dull Chrome
4 – Satin Brass	19 – Black	Y21 – Matte Black

key codes

Key codes stamping may appear with or without zeros preceding other numbers, i.e.: C001A and C1A are the same key code.

STOCK LOCKS

**Through your CompX National distributor
— a program to meet your lock requirements.**

CompX National manufactures a wide variety of locks for residential, commercial and industrial use. We've been solving security problems since the need for metal cabinet locks brought about the founding of our company in 1903.

The locks shown in this catalog are particularly well-suited to serve the replacement market, as well as component manufacturers.

Working through your CompX National distributor, we offer a program that is committed to serving your needs.

A complete selection of locks

- Door and drawer locks for virtually every application, every security requirement
- Wide variety of mail box locks
- Locking devices of every description for use in schools, institutional and commercial buildings
- Key blanks and keying kits to complement each of our locks

Packaged for your convenience

- All hardware is individually packed in see-thru poly-bags for product protection and easy inspection
- Poly-bags of like hardware are grouped in popular quantities and placed in handy cases
- Case designed for convenience in storage and ease in handling

pin tumbler cylinder cam locks

CAM DIMENSIONS

Through the use of a shifter, the 360° key turn turns the cam 90° in either direction. Actual application determines which cam position is the locked position. Each lock is furnished with an alternate cam for opposite cam turn.

Applications: solid lines show locked position of cam	Position of shifter on back of lock	Applications: solid lines show locked position of cam	Position of shifter on back of lock

MOUNTING HOLES FOR CYLINDER CAM LOCKS

OVERLAY

Wood

BRASS CONSTRUCTION

FLUSH

LIPPED/
OVERLAY

C8102

The C8102, as shown above in both pictures, is a Multi-Functional Pin Tumbler Cam Lock with a 1-1/16" Cylinder Length. **The lock is packaged with four (4) cams, two straight and two double formed.** This allows the lock to be used for multiple applications for either drawer or right hand/left hand doors with lipped or overlay construction.

LIPPED/
OVERLAY

C8101
C8103
C8109

APPLICATION – For drawer, R.H. or L.H. doors. C8103 and C8109 are for lipped or overlay construction. For overlay application, the combined thickness of front and frame cannot exceed the cylinder length. Also see overlay detail below. The other locks are for flush application.

OPERATION – 90° cam turn, key removable in both locked and unlocked positions.

KEYING – Will key together with all other pin tumbler locks using D4291 key blank except locks shown on pages 8 and 9. See table for available keying. Master keying to GM1.

PACKAGING – Supplied with two keys, trim washer, spur washer for wood, C2014 cam lock mounting plate for wood, mounting nut and two cams. If flat washer (for metal) is needed, order C2015-2C separately. See page 22.

FLUSH

C8106
C8108

OVERLAY

Specific cams to be used with C8102 lock are available for overlay construction using a 3/4" thick front and 3/4" thick frame. See page 23 for details.

3000 - 3999	4000 - 4999

Key blanks ship 50 per box.

• Lock can withstand 1000 pounds of force applied to the cam

• Accommodates up to 3/16" thick cam C7120

• Drain holes on the bottom of the cylinder

USPS specification "USPS-L-1172C" for USPS-STD-4C mailboxes

APPLICATION – Exterior pedestal-mounted neighborhood boxes. Has keyway dust shutter for lock protection. Clip mounted.

OPERATION – C9100 operates clockwise. C9200 operates counter clockwise. Key removable in locked position only.

KEYING – Available keyed differently only (2,000 changes). See chart for correct key blank part number.

PACKAGING – Includes: a spring clip, mounting nut and (3) keys. Case quantity 25.

Replacement cam part number C7120 available as separate item. See page 22.

new!

postal locks for non-USPS delivered sites

These new postal locks are for private delivery postal mailboxes only in colleges, universities, commercial buildings, mail/parcel centers. They are direct drop-in replacements for original USPS locks.

C9300

APPLICATION – Interior, pedestal-mounted or in-wall boxes. Screw mounted. Hardware not included. Commercial equivalent of USPS 306B.

OPERATION – 90° counter-clockwise cam turn to open. Key removable in locked position only.

KEYING – Available keyed differently only (4,000 changes). Key blank part number D4400.

PACKAGING – Supplied with cam assembled and three keys. Case quantity 25.

D4400

Replacement key blanks ship 10 per bag.

C9400

APPLICATION – Interior, pedestal-mounted or in-wall boxes. Screw mounted. Hardware not included. Commercial equivalent of USPS 306D.

OPERATION – 90° counter-clockwise cam turn to open. Key removable in locked position only.

KEYING – Available keyed differently only (4,000 changes). Key blank part number D4400.

PACKAGING – Supplied with cam assembled and three keys. Case quantity 25.

C9500

APPLICATION – Interior, pedestal-mounted or in-wall boxes. Screw mounted. Hardware not included. Commercial equivalent of USPS 308.

OPERATION – 30° counter-clockwise cam turn to open. Key removable in locked position only.

KEYING – Available keyed differently only (4,000 changes). Key blank part number D4400.

PACKAGING – Supplied with three keys. Case quantity 25.

pin tumbler drawer locks

New – C8137 lock with STAINLESS STEEL bolt!

The stainless steel bolt withstands a higher degree of abuse and is a direct replacement for existing C8137 with die-cast bolts.

APPLICATION – For center drawers of metal desks. Fits special piercing of drawer front and selvage (see drawing).

OPERATION – Key removable in both locked and unlocked positions.

KEYING – Will key together with all other pin tumbler locks using D4291 key blank except locks shown on pages 8 & 9. See table for available keying. Master keying to GM1.

PACKAGING – Supplied with two keys, mounting nut and stainless steel insertable bolt.

Part No.: C7137 – Stainless steel replacement insertable bolts. Sold in bags of 10.

M337272116X150J – Die-cast replacement insertable bolts.

disc tumbler cylinder cam locks

MOUNTING HOLES FOR ALL CAM LOCKS

CAM DIMENSIONS

LOCK APPLICATION

LIPPED/OVERLAY

FLUSH

OVERLAY

The C8053 lock using the C7014 cam accommodates overlay construction using a 3/4" thick front and 3/4" thick frame. See page 23 for details.

All locks feature FlexaCam™

U.S. Patent No. 9,512,653. Three spacers enclosed with most CompX National threaded disc tumbler cam locks offer three thicknesses – providing up to 12 different dimensional variations.

APPLICATION – For drawers, R.H. or L.H. doors with lipped/overlay construction (straight cam) or flush construction (formed cam). For overlay application, the combined thickness of front and frame cannot exceed the cylinder length. Also see overlay detail at above right.

OPERATION – 90° cam turn on all locks. Key removable in both locked and unlocked positions.

KEYING – Will key together with all other disc tumbler locks using D8785 key blank. See table for available keying. Master keying to E41A using D8783 key blank.

PACKAGING – Supplied with two keys, trim washer, spur washer (for wood), mounting nut and one straight cam (M97010104) and one offset cam (M97030128). If flat washer (for metal) is needed, order C2015-2C separately. See page 22.

Self-locking SlamCAM – spring loaded latch

C7017

True convenience – release the key, and the self-locking component automatically returns the lock, along with SlamCAM (patent 9,605,455), to the locked position.

Part No.	Description	SlamCAM dimensions	Self-locking dimensions	Box quantity
NEW! C7017	SlamCAM, a spring loaded latch, along with the self-locking component, converts CompX National cam locks (C8051-C8075) into self-locking	13/16" wide, 1-7/16" high, 25/32" deep	3/4" diameter, 5/16" deep	25

Note: Using the self-locking component adds 5/16" to the length of the lock.

INSTALLATION NOTE: For C8051 and C8052, the washer must be installed between the cylinder and the self-locking component to secure the lock plug properly.

PACKAGING:

Packaged with SlamCAM, self-locking component, four spacers, washer and three mounting screws

View the SlamCAM video:

disc tumbler cylinder cam locks

C8060, C8061, C8073, C8075

All locks feature FlexaCam™ (Patented)

Three spacers enclosed with most CompX National threaded disc tumbler cam locks offer three thicknesses – providing up to 12 different dimensional variations. See diagram on page 12.

APPLICATION – For drawers, R.H. or L.H. doors with lipped/overlay construction (straight cam) or flush construction (formed cam). For overlay application, the combined thickness of front and frame cannot exceed the cylinder length. Also see overlay detail at above right.

OPERATION – Choice of either 90° or 180° cam turn. Key removable in both locked and unlocked positions.

KEYING – Will key together with all other disc tumbler locks using D8785 key blank. See table for available keying. Master keying to E41A using D8783 key blank.

PACKAGING – Supplied with two keys, trim washer, spur washer (for wood), mounting nut, two cams and two stop washers. If flat washer (for metal) is needed, order C2015-2C separately. See pg. 22.

The C8073 lock using the C7014 cam accommodates overlay construction using a 3/4" thick front and 3/4" thick frame. See page 23 for details.

APPLICATION – For doors and drawers. Surface mounted.

Requires 3/4" diameter hole for cylinder

OPERATION – Choice of either 90° or 180° cam turn. Key removable in both locked and unlocked positions.

KEYING – Will key together with all other disc tumbler locks using D8785 key blank. See table for available keying. Master keying to E41A using D8783 key blank.

PACKAGING – Supplied with two keys, two mounting screws, two formed cams and two stop washers. Assembled for 90° cam turn.

CAM LOCKS

C8830 (90°) Cam Lock
C8832 (180°) Cam Lock (shown)

Can also be used with pin cams.
See page 17.

Use
C8850*
Core

APPLICATION – For wood pedestals, door or drawer, R.H. or L.H. Surface Mounted. For flipper door use C7015 offset cam and C2003 strike. See pages 17 and 22.

OPERATION – Choice of 90° or 180° cam rotation, CCW to lock.

KEYING – Order core plug separately, C8850, see pg. 15.

PACKAGING – Housing assembly supplied with two mounting screws and straight cam. Housings are unplated.

Part No.	Description	Type of Installation	Cam Rotation	Lock Cylinder Length	Maximum Material Thickness	Case Quantity
C8830	Housing Assembly	Pedestal	90°	3/4"	3/4"	25
C8832	Housing Assembly	Pedestal	180°	3/4"	3/4"	25

* See page 15 for keying options.

SIDE MOUNTED TWO DRAWER "MINI" GANG LOCK

D8836 "Mini"
Gang Lock

Use
C8850*
Core

DRAWER LOCK

C8834
Drawer Lock

Use
C8850
Core

APPLICATION – Two drawer "Mini Gang" lock for desk or pedestals, and single locking drawer for desk or pedestals. Surface Mounted.

OPERATION – Key turn on the D8836 moves the 6" bar from above or below the plastic stops, which are mounted on drawer sides, thus preventing drawer movement. C8834 has a 11/32" bolt throw.

KEYING – Order core plug separately, C8850, see page 15.

PACKAGING – Housing assemblies supplied with four mounting screws and bolt. D8836 comes with two plastic stops and mounting screws. Housings are unplated.

Part No.	Description	Type of Installation	Bar/Bolt Operation	Lock Cylinder Length	Bar/Bolt Travel	Case Quantity
C8834	Housing Assembly	Single Drawer	Dead	3/4"	11/32"	25
D8836	Housing Assembly	Desk Pedestals on two drawer applications	Dead Locking	3/4"	11/32"	10

* See page 15 for keying options.

disc tumbler furniture locks

GANG LOCKS WITH

REMOVACORE™

APPLICATION – For locking drawers in desk pedestals and other multiple drawer applications. Lock mounts in right corner. Can also be mounted for left corner application. Surface mounted. Requires 21/32" diameter hole for cylinder, and when required, a dado for bar, measuring 7/8" x 3/16" deep in inside of panel.

OPERATION – Turning the key locks all drawers simultaneously (drawers must be in closed position). Bar moves studs from above or below the plastic stops, which are mounted on drawer sides, thus preventing drawer movement.

KEYING – Order core plug separately, C8850, see page 15.

PACKAGING – Housing assembly supplied with three set screws for 1/2" projection, three slides, saddle, three plastic stops, and mounting screws. If 1" projection is required, order locking studs separately.

Both Locks Use
C8850 Core

MOUNTING HOLE

APPLICATION – For locking drawers in desk pedestals and other multiple drawer applications. Lock mounts on inside of unit. Surface mounted. Requires 21/32" diameter hole for cylinder.

OPERATION – Turning the key locks all drawers simultaneously (drawers must be in closed position). Bar moves studs from above or below the plastic stops, which are mounted on drawer sides, thus preventing drawer movement.

KEYING – Order core plug separately, C8850, see page 15.

PACKAGING – Housing assembly supplied with three set screws for 1/2" projection, three slides, saddle, three plastic stops, and mounting screws. If 1" projection is required, order locking studs separately.

disc tumbler central locking systems

For convenience, we have gathered together in one package all components, fasteners and installation guidelines to provide security for three typical wood office furniture applications.

CENTER DRAWER LOCKING

APPLICATION – For installing in wood desks with center drawer and up to six side drawers, three per pedestal. Drawer lock is installed in center drawer.

OPERATION – Movement of the center drawer operates the system. When center drawer is closed, the closing motion is transferred to the pedestals via mounted ramps. Flags are pivoted into the path of side drawer mounted stops preventing opening of side drawers.

KEYING – Will key together with all other disc tumbler locks using D8785 key blank. See table for available keying. Master keying to E41A using D8783 key blank.

PACKAGING – Supplied with two keys and all components shown and necessary mounting screws. See installation sheet for complete parts listing.

Part No.	Bolt Type	Cylinder Length	Bolt Throw	KA* Codes	KD Changes	Case Quantity	Non MK Key Blank
D8950-3	Dead	15/16"	11/32"	1	100	5	D8785
D8950-4G	Dead	15/16"	11/32"	1	100	5	D8785

PEDESTAL LOCKING

APPLICATION – For multiple drawer locking of wood desk pedestal only or mobile pedestal unit. Bar lock is installed in top drawer. For inside case width up to 15-1/2".

OPERATION – Locking the top drawer rotates rod with attached flags which pivot into path of drawer mounted stops preventing opening of lower drawers.

KEYING – Will key together with all other disc tumbler locks using D8785 key blank. See table for available keying. Master keying to E41A using D8783 key blank.

PACKAGING – Supplied with two keys and all components shown and necessary mounting screws. See installation sheet for complete parts listing.

Part No.	Bar Operation	Cylinder Length	Bolt Throw	KA* Codes	KD Changes	Case Quantity	Non MK Key Blank
D8951-3	Reversible	15/16"	11/32"	1	100	5	D8785
D8951-4G	Reversible	15/16"	11/32"	1	100	5	D8785

LATERAL FILE LOCKING

APPLICATION – For wood constructed two drawer lateral files with inside case width up to 42". Double throw bar is installed in top drawer.

OPERATION – Once current inventory is depleted, the D8952 will not include the "anti-tilt" components. The D8952 will only include components for central locking. If anti-tilt is needed, consider the CompX Timberline System 400 for two-drawer lateral files. This permits only one drawer at a time to be opened. For more information on the System 400, refer to CompX Timberline STOCK LOCKS catalog page 6. D8952 does NOT include System 400.

KEYING – Will key together with all other disc tumbler locks using D8785 key blank. See table for available keying. Master keying to E41A using D8783 key blank.

PACKAGING – Supplied with two keys and all components shown and necessary mounting screws. See installation sheet for complete parts listing.

Part No.	Bar Operation	Cylinder Length	Bolt Throw	KA* Codes	KD Changes	Case Quantity	Non MK Key Blank
D-8952-3	Double throw	15/16"	11/32"	1	100	5	D8785
D8952-4G	Double throw	15/16"	11/32"	1	100	5	D8785

*Key Codes used: 1 Code – C415A.

furniture locks

C8252, C8253

C8207

C8826

APPLICATION – This group of locks is used primarily on furniture and other fine cabinetry. C8826 is surface mounted and requires hole for key entry, all other locks require full 11/32" x depth of lock. Additional mortising, required for lock selvedge plus hole for key entry.

OPERATION – Key removable in both locked and unlocked positions.

KEYING – Each lock furnished keyed alike.

PACKAGING – Supplied with one key. All locks except C8826 are supplied with strikes. Key hole escutcheons are packed with C8207 and C8826.

Part No.	Installation	Bolt Type	Bolt Travel	Case Quantity	Reference Number	Key Blank

chest/lid locks

C8414 (Replaces C8412)

C8384

APPLICATION – Lid locks for cedar chest application and other lid locking requirements. C8414 is surface mounted and requires a 9/16" diameter hole for cylinder. C8384 requires 11/32" wide x depth of lock full mortise plus mortise for selvedge plus hole for key entry.

OPERATION – Key removable in both locked and unlocked positions. C8414 has a safety feature requiring operation of pushbutton to lock or latch lid closed.

KEYING – Each lock furnished keyed alike.

PACKAGING – Supplied w/one key. Appropriate strikes & mounting screws supplied w/locks w/additional keyhole escutcheon furnished w/C8384.

Part No.	Installations	Bolt Type	Cylinder Length	Bolt Travel	Case Quantity	Reference Number	Key Blank
C8384-3	Chest Lid, Full Mortise	Hook	—	5/16" .200" side shift	25	N0-0384-001	D8890
C8414-4G	Chest Lid, Surface Mounted	Internal, Engages Strike	7/8"	—	25	N0-8414-001	D8194

keyless combination cam lock

APPLICATION – For drawers, R.H. or L.H. doors with flush or overlay construction. Requires 3/4" diameter mounting hole.

OPERATION – Can be operated using a combination or a key. Once unlocked, rotate the housing 90° clockwise to unlatch. Unlock using combination: turn wheels until correct combination appears in the combination windows. Press button and rotate clockwise to unlock. To lock, rotate the key 90° counter-clockwise to lock.

KEYING – Will key together with all other disc tumbler locks using D8770. Master keying is standard.

PACKAGING – D8030 supplied with two keys, mounting nut, 4-prong wood anchor, (1) 2" length straight cam, (1) 2" length with 7/32" offset cam. D8031 supplied with two keys, mounting nut, 4-prong wood anchor, (1) 2" length straight cam, (1) 2" length with 7/32" offset cam, (1) 2" length with 19/32" offset cam.

Recommended Mounting Hole Sizes

Note: Do not use spur washer with metal door or drawer.

Flush door application

Flush drawer application

disc tumbler handle locks

APPLICATION - For doors on metal lockers and cabinets. For R.H. doors, install with escutcheon vertical. For L.H. doors, install with escutcheon horizontal. See above drawings. Choice of spindle lengths and mounting. Spindles accept both C8756 latch plate and C8757 tongue except C8747 which has 8-32 tapped end hole and C8749 which will accept only the C8757 tongue. Spindles can be cut to fit special requirements.

OPERATION - Key removable in both locked and unlocked positions.

KEYING - Will key together with all other disc tumbler locks using D8785 key blank. See table for available keying.

PACKAGING - Supplied with two keys (except C8755) and mounting hardware.
